

## **Rolls-Royce SMR Supply Chain Payment Terms Plan**

Rolls-Royce SMR understands the critical role that strong partnerships play in driving business success. Its commitment to excellence goes beyond its products – it extends to relationships with suppliers.

We recognise the importance of prompt payments for the work which our supply chain has completed. Our payment terms are more than just financial arrangements; they lay the groundwork for collaborative and sustainable partnerships and by providing reasonable payment windows, we recognise the important role we play in ensuring our suppliers' financial stability.

We continuously monitor and look to improve our processes, wherever possible, and we have recently, proactively, implemented improvements to our payment and monitoring processes which will optimise our procedures for more efficient and prompt payments. This is a direct result of our commitment to providing a streamlined experience for our suppliers.

Our standard payment terms are that Rolls-Royce SMR will make payment on the first Friday 45 days after receipt of a valid, complete, and accurate invoice from our supplier. If such a Friday is not a normal banking day in the United Kingdom, then payment will be made on the following normal banking day in the United Kingdom.
